FOR NEAL KINGERY
In memory of one who loved to live,
Of one who had so much to give
So brilliant, cheerful, full of fun
Yet here with us his life is done.
We're not to know what's in God's mind
His will to do with all mankind
We're only here from day to day
It is His will how long we stay.
But this boy knew that any hour
He might be called by that Great Power
He knew he had to get things done
Before the Lord said "Come, Son, come."
He worked very hard to be the best
His courage far outdone the rest
Since sports were out where he was concerned
He took to books where he could learn.
A model student in every way,
At home, at school, at church, at play
If only God could have let him stay
He'd be with our graduating class today.

## *Sports of '78-'79*

The world of sports had a truly interesting year, STEVE CAUTHEN became the youngest jockey ever to win the Triple Crown. MUHAMMAD ALI won back his heavyweight title for an unprecedented 3rd time. The NEW YORK YANKEES, behind the superb pitching of RON GUIDRY and managing of BOB LEMON, came from 14 games behind in their division and won their 2nd straight World Series from the L.A. Dodgers. The PITTSBURG STEELERS showed why they are the best team in Pro Football by posting the best record (14-2) and defeated the defending Super Bowl Champions DALLAS COWBOYS 35-31; In divisions surprising SEATTLE (9-7) showed why they are a team on the rise and HOUSTON behind the sensational EARL CAMPBELL won 2 playoff victories. College football was a split for 1st place. ALABAMA and U.S.C. split A.P. and UPI votes for national champion. WOODY HAYES was terminated as head football coach at OHIO STATE for striking a CLEMSON football player. In college basketball MICHIGAN STATE behind the passing of EARVIN (MAGIC) JOHNSON and dunking of GREGORY KELSOR won the NCAA championship; Indiana STATE proved the experts wrong by showing they can beat the other so-called college powerhouses. LARRY BIRD of ISU became the college basketball player of the year. In pro basketball the WASHINGTON BULLETS won their first NBA crown, from the SEATTLE SUPERSONICS and SAN ANTONIO'S GEORGE (ICEMAN) GERVIN took the scoring title. In auto racing MARIO ANDRETTI became the first American since 1961 to win the world driving championship, and AL UNSER captured his third INDY 500. The least-known champion of the motor sports, KENNY ROBERTS, won the motorcycle racing title for 500 cc bikes, the first American ever to do so. In golf it was GOLDEN BEAR JACK NICKLAUS who hadn't won a major championship in two years who won the BRITISH OPEN and became SPORTS ILLUSTRATED SPORTSMAN OF THE YEAR. In women's golf NANCY LOPEZ stroked away with almost every thing in sight and became the personality on the pro tour. In soccer ARGENTINE won the WORLD CUP from HOLLAND 3-1 and even though the U.S. didn't get past their 1st obstacle, the sport continues to grow. Women's tennis made big news; 16 year old PAM SHRIVER and 15 year old TRACY AUSTIN showing their stuff. In men's tennis BJORN BORG won WIMBLEDON and JIMMY CONNERS won the US OPEN. In track and field HENERY RONO was the main man. In 81 days he set 4 world records: APRIL 8, BERKELY 13:08.04 for 5000 meters, MAY 13, SEATTLE 8:05.4 for 3000 meters steeplechase, JUNE 11, VIENNA 27:22.5 for 10,000 meters, JUNE 27, OSLO 7:32.1 for 3000 meters. In hockey the MONTREAL CANADIENS won their straight STANLEY CUP by beating the BOSTON BRUINS 4-2. The sports world was shocked by the death of LYMAN BOSTOCK a CALIFORNIA ANGEL, when he was shot to death in GARY IN. Others were JIM GILLIAM, '49, DODGER 2ND baseman and coach who started for the 1965 world series winners; GENE TUNNEY heavyweight boxing champ 1926-1928 best known for two victories over DEMPSY including "LONG COUNT BOUT"

BY TIM WILLIAMS

The identity of the new Pope and the speed with which he was elected were stunning surprises. The cardinals had decided to avoid a long fight by settling quickly on a compromise candidate known both for personal affability and doctrinal conservatism. The Pontiff acted just as swiftly to show that he meant to be a Pope of unity.

## *Pope John Paul I*

## *Pope John Paul II*

A new era has begun in Rome. In style, John Paul II is in the tradition of his namesake and the beloved Pope John XXIII, but he also promises more: at a moment when the church desperately needs confident leadership, he has a history of pragmatic self-reliance in dealing with adversity. He is the first Pope since the Renaissance not under Italian sway; as a Pole, he has been tempered by 33 years of confrontation with a Communist state.

North America's last solar eclipse of the century was obscured by a cold gray cloud cover along much of the path of totality. It was an all-too-brief show. It will be a spell until the next United States performance: A.D. 2017.

## *Disco Takes Over*

Roll over, rock. Disco is here to stay. Whether they "Do It at the Disco" with Gary's Gang, at the "Y.M.C.A." with the Village People or in "MacArthur Park" with Donna Summer, whether they call it "the weekend two-step," "the bionic boogie" or "le freak," Americans are listening to a different drummer whose message is "shake your booty," "shake your groove thing"—or dance, dance, dance!

## *Visions of China*

The project is vast, daring, and unique in history. How could there be a precedent for turning 1 billion people so sharply in their course, for leading one-quarter of mankind quickstep out of dogmatic isolation into the late 20th century and the life of the rest of the planet? The People's Republic of China, separated so long from the outer world by an instinctive xenophobia and an admixture of reclusive Maoism, in 1978 began its Great Leap Outward, or what Peking's propagandists call the New Long March. The Chinese, their primitive economy threadbare and their morale exhausted by the years of Mao Tse-tung's disastrous Cultural Revolution, hope to have arrived by the year 2000 at a state of relative modernity, and become a world economic and military power. They may not arrive, or arrive on time, but their setting off is an extraordinary spectacle of national ambition.

## *Jonestown*

The commune was billed as an agricultural experiment designed to help the Guyanese people. But there was not ever enough food to feed Jonestown's settlers, and the few who escaped the mass suicide were undernourished, with half-healed sores covering their bodies.

## *The Big Tax*

In California 65% of the voters backed a proposal to slash their own property taxes—and made the tax revolt the new gut issue in American politics. The vehicle for their rousing rebellion was a ballot initiative known as Proposition 13 or the Jarvis-Gann amendment to the state constitution.

## *A Nuclear Nightmare*

In the dead of night, the hulks of four 372-ft. cooling towers and two high-domed nuclear reactor container buildings were scarcely discernible above the gentle waters of the Susquehanna River, eleven miles southeast of Harrisburg, Pa. Inside the brightly lit control room of Metropolitan Edison's Unit 2, technicians on the lobster shift one night last week faced a tranquil, even boring watch. Suddenly, at 4 a.m., alarm lights blinked red on their instrument panels. A siren whooped a warning. In the understated jargon of the nuclear power industry, an "event" had occurred. In plain English, it was the beginning of the worst accident in the history of U.S. nuclear power production, and of a long, often confused nightmare that threw the future of the nuclear industry into question.

## *Nuclear Accident*

It began with a brief but terrible bump in the night and quickly grew into the worst commercial nuclear accident in U.S. history. At the Three Mile Island power plant near Harrisburg, Pa., a balky valve malfunctioned, setting off an intricate chain of mechanical and human failures. In the control room of the plant's Unit II, warning lights flashed and an electronic alarm rang

## *Here Comes The Recession*

Recession will strike the U.S. economy later this year, but the slowdown will be shallow and brief.

Inflation will continue to oppress the nation, though prices will be rising at a somewhat lower rate at year's end than they are now.

Interest rates will continue to climb for several more months and then begin to decline rather substantially

Unemployment will start to march up, and by Christmas roughly 1 million more Americans will be out of work.

The U.S. trade deficit will diminish this year, but the dollar will remain weak against the mighty German mark and Swiss franc.

The federal budget deficit will soar much higher than Jimmy Carter's overly optimistic goals for fiscal 1980.

The stock market will remain sluggish for months, but later this year it will rebound.

Christi Caldwell was the Valedictorian of the 1979 class.

The salutatorian was Michelle Deason.

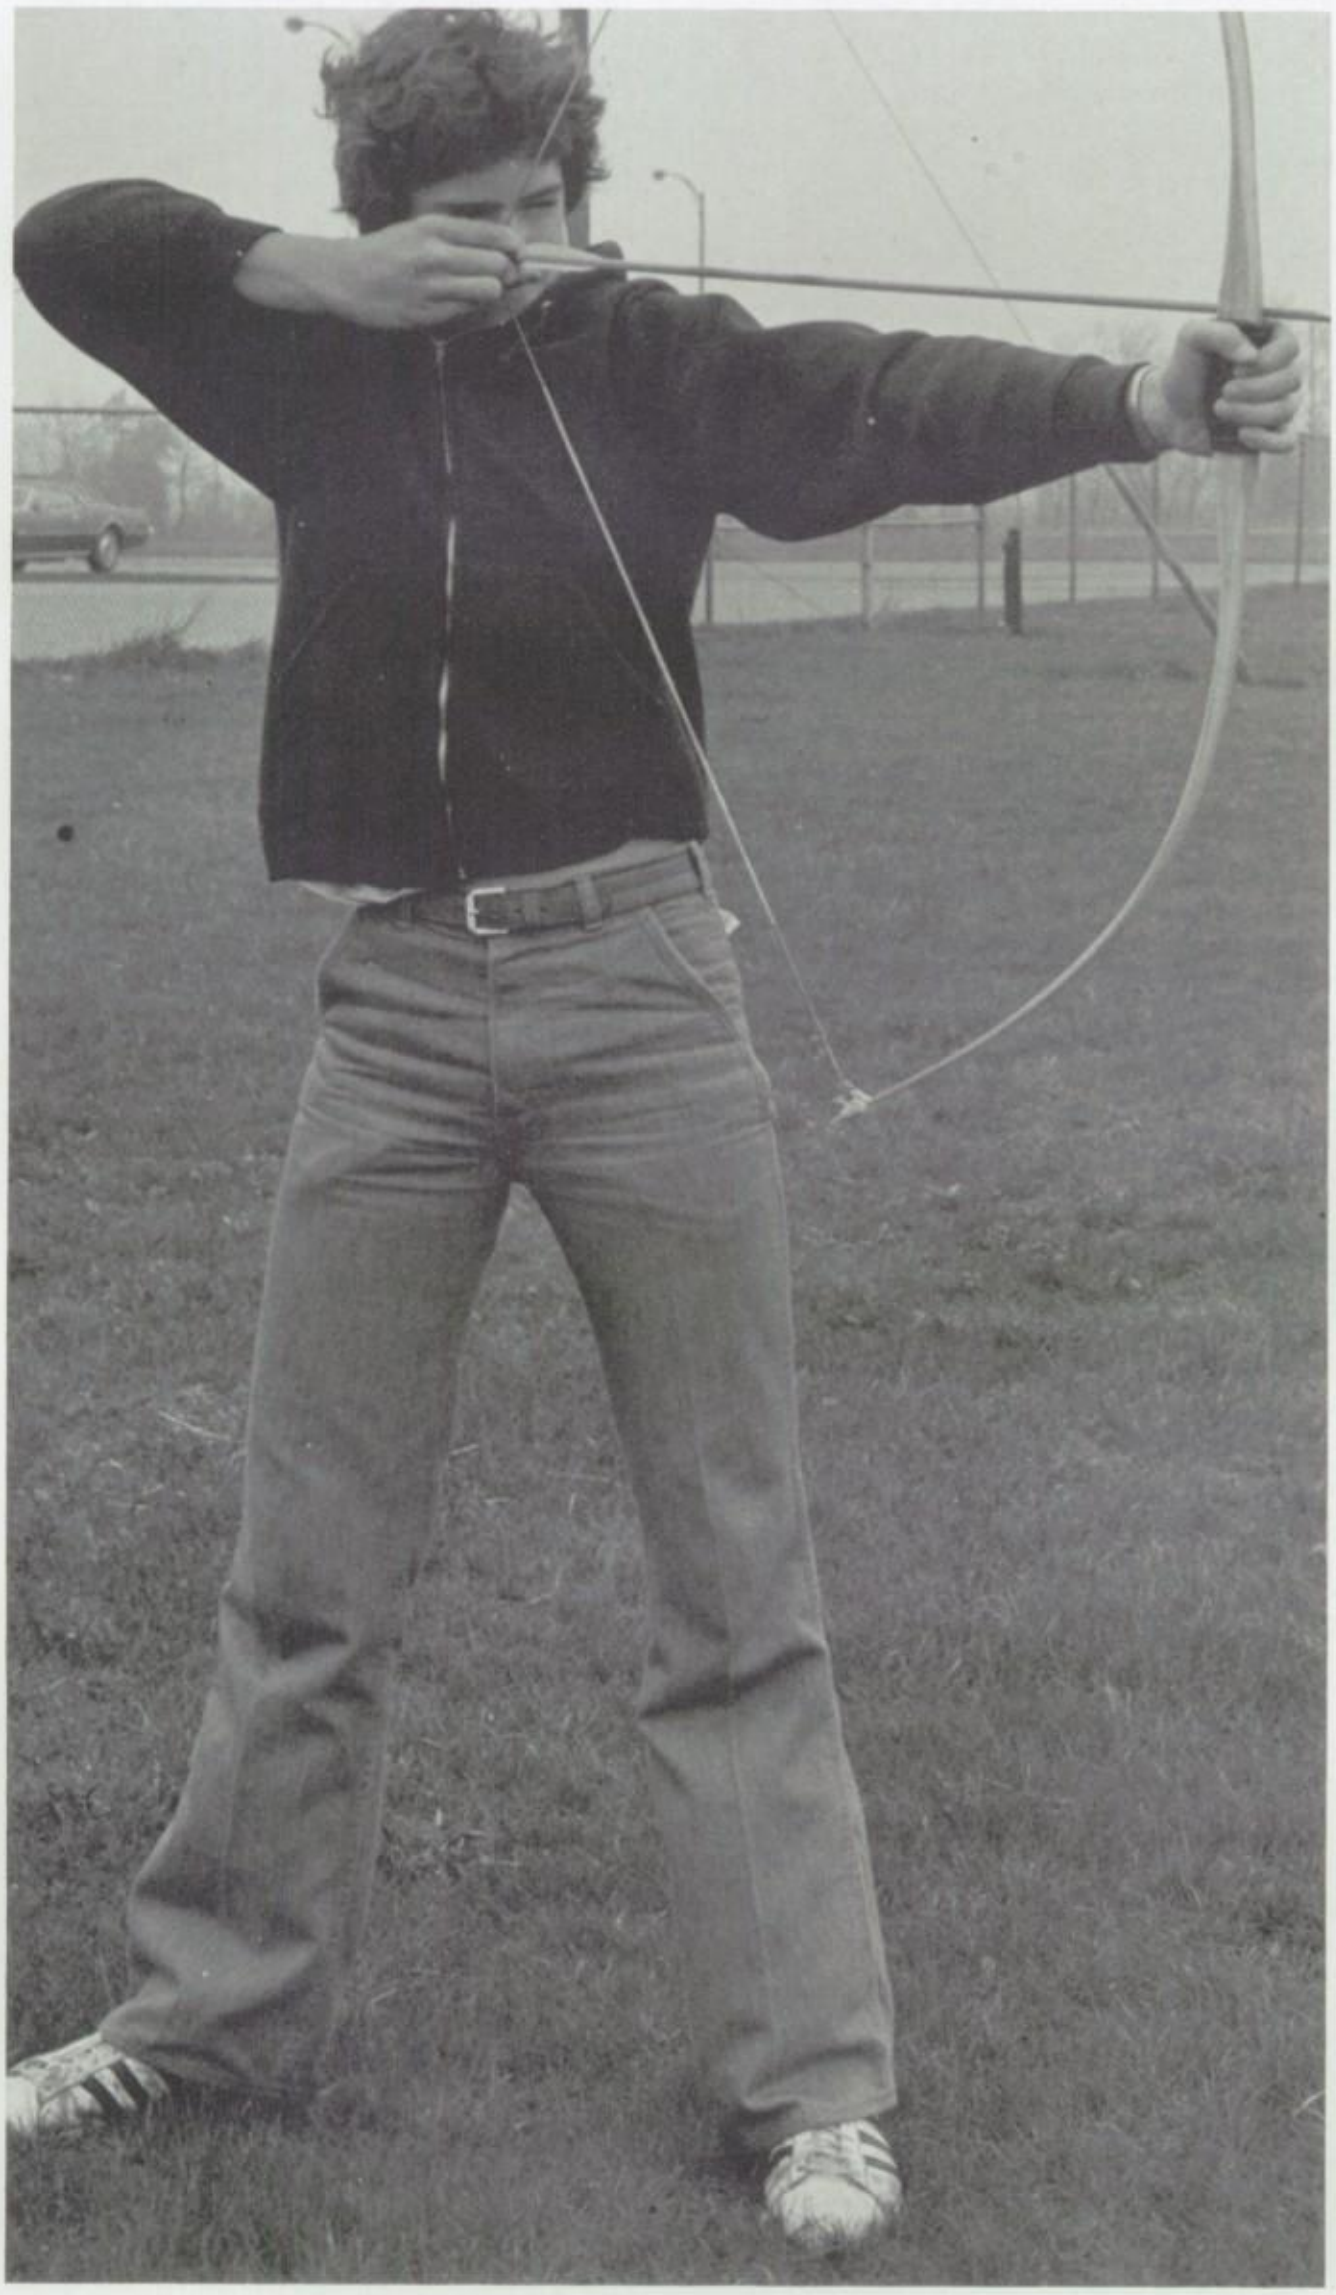
# *Mini-Courses '79 provide welcome change of pace for school–weary Centralites*



Mini-courses were divided into two catagories this year. One-half day involved learning about a college of your choice and the different types of careers. The following day was spent with various types of activities such as: Canoeing, Hiking, Disco Dancing, Fishing, Candy Making, Outdoor Cooking, Golf, and Ice Skating. Even though the weather was cold and rainy, the students felt Mini-Courses were a big success this year and are looking forward to next year's activities.

# *Central staff and students say thanks to retiring teachers*

On May 16, retiring staff members were entertained at a dinner and program. Those honored were Esther Falls, Harold McKinney, Marjorie Gossard and Iris Grosswiler.

Mrs. Falls, who retired as high school English teacher at the end of the 1978 school year, taught at Kirklin High School and came to Clinton Central when the schools consolidated.

Mr. McKinney is retiring at the end of the 1979 year. He taught agriculture and science at Clinton Central, after previously teaching at Michigantown.

Mrs. Gossard, cafeteria supervisor, is also retiring at the end of 1979. She also served as secretary in the high school and in the superintendent's office.

Mrs. Grosswiler will be remembered by many high school students as their first grade teacher. She taught many years at Forest before coming to Clinton Central.
